PROFESSIONAL SUMMARY

Senior Product Designer with 4+ years of experience designing SaaS, AI, fintech, mobility, and enterprise products. Specialized in product strategy, UX/UI design, design systems, information architecture, prototyping, and data visualization. Experienced in leading products from discovery to delivery, transforming complex workflows into intuitive, scalable digital experiences through user-centered design and cross-functional collaboration.

EXPERIENCE

Automai Corporation, Casablanca - *Senior UX/UI Designer*

Feb 2026 - PRESENT

- Lead UX design for a synthetic monitoring SaaS platform, overseeing product documentation, dashboard redesign, and design-system alignment across multiple modules.
- Conduct heuristic evaluations (Nielsen's 10 heuristics) and Jobs-to-be-Done research to identify usability gaps and inform a unified product redesign strategy.
- Design and prototype dashboard interfaces, translating findings into stakeholder-ready decks and developer-facing specifications.

Vesense (Freelance), Rabat - *Senior UX/UI Designer*

Sept 2025 - Dec 2025

- Led end-to-end design of a finance-sector digital product, from discovery through UX flows, interface design, and high-fidelity prototyping.
- Built the product's visual identity system, including color tokens, typography, UI components, and design guidelines.
- Designed data dashboards and analytics views using ApexCharts to surface transaction metrics and operational insights.
- Partnered with product, engineering, and business stakeholders to define scalable features and streamline handoff.

EVEAD Group, Casablanca - *UX/UI Designer*

Jul 2023 - Jul 2025

- Led design initiatives for AI and data-driven products, delivering intuitive UX workflows powered by AI-generated insights.
- Defined and implemented design processes with product owners to drive iterative product improvements.
- Maintained design consistency through reusable components, improving cross-team communication and delivery speed.

UX Centers, Rabat - *Junior UX/UI Designer*

Aug 2022 - Jul 2023

- Designed SaaS tools and a web application for call-center management, streamlining day-to-day operations.
- Developed and implemented a new design system to improve usability, performance, and visual consistency.
- Collaborated with project managers and developers in Agile environments, from research through delivery.
